

CONCEALED FRAME GRILLES

M O D E R N . S I M P L E . B E A U T I F U L .

Love Every Part of Your Home

For years, traditional HVAC grilles have been an eyesore, engineered for function with little regard for style.

New modular grilles may look trendy, but their tiny air opening restricts airflow, leading to poor air circulation and uncomfortable living space. Insufficient airflow isn't just uncomfortable, but it can damage HVAC systems and raise utility bills.

Stay comfortable without sacrificing style. Dayus concealed frame grilles offer high performance in a sleek and minimalist design. Achieve the look you want with the performance you need.

Create a home that is as beautiful as it is comfortable.
Minimalist concealed grilles are attractive and functional.

Standard Grille

DABLJ

Bar Linear Mud-In Grille

DARHEJ-45

Mud-In Return Grille

PERFORMANCE

Options

Like all Dayus products, concealed frame grilles are fully customizable. Below are our most popular options.

- Removable core for maintenance and cleaning
- 0°, 15°, 30° blade deflection
- ½" and ¼" blade spacing
- ¼" and 13/64" blade width
- Prime coat for on-site painting to match walls
- Custom powder coat paint finishes

Installation

Easily installed, the DABLRJ grille is secured with screws, taped and finished over. Paint to match wall for an integrated look.

For full installation instructions, visit our website.
