

OBD | Opposed Blade Damper

- Opposed blade damper with slide operator to control the volume of air.
- Roll-formed aluminum blades pressure fitted on nylon pins for a rattle-free and non-loosening damper.
- Constructed with high-quality, extruded aluminum frame.
- Easily adjusted with flat screwdriver.
- Mullions used for sizes over 22" in length.
- Designed to fit onto the back of Dayus grilles.
- Available on 2" increments as standard. Custom sizes available down to 1/16" increments.
